

## Dussel Drive/Salisbury Committee May 6, 2009 Meeting

Attending: Cathy Redford, The Andersons; Pete Brotzki, UPS; Dan Madigan, Maritz; Don Feller, Feller, Finch & Assoc.; Susan Utterback, APA; Stacey Dunbar, Huntington; Dick Moore, Paramount; Nancy Savage, Matrix Technologies; Taylor Oswald, Therma-Tru Doors; Mark Rasmus, Tomahawk; Theresa Pollick, ODOT; Sean Falk, Salsaritas Fresh Cantina; Mark Thees, Pinnacle.

Theresa Pollock presented slides and an update on the ODOT Dussel Drive/Salisbury Road Interchange project. Next important dates noted were:

5/11/2009: Intermittent disruptions begin under bridge on I-475/US 23

6/1/2009: Drainage ditch work on the south end of ditch which will take approximately one month to complete

7/4/2009: North side of overpass bridge work on Dussel will begin. It was noted this could start earlier if the drainage ditch work finishes ahead of schedule. The work will all be done during the daytime. During the work on each side (north, then south), traffic will be restricted to one lane each direction, and all turns will be at the intersections.

The pre-construction meeting with ODOT and Miller Bros. went very well and they appreciate the way Miller Bros. is working.

Other items of note:

\*The I-475 ramp will close at some times but two lanes of traffic will be maintained.

\*Median work -- some of this will be done at night

\*In May, Salisbury Road will be closed for 7 days between Strayer and Manley for repair of the bridge in that location.

\*May 14, 2009 at 2:00 was selected as the date for the public meeting with ODOT. Mark Thees graciously agreed to provide space at The Pinnacle for this meeting. Notices will be sent to all businesses and announcements will be made otherwise by the APA and ODOT.

Finally, Theresa offered the email address where anyone can sign up to receive continuing updates on the project work via email.

Respectfully submitted,

Cathy Redford
