We Can Help You Avoid a Stroke

Trusted by Hospitals Nationwide

Life Line Screening has screened over 6 million participants and has partnered with hospitals across the country. Why? Because the ultrasound screenings that we offer can help save your life.

1 Stroke/Carotid Artery Screening – \$60.00

Ultrasound evaluation of the carotid arteries that screens for buildup of fatty plaque – the leading cause of strokes.

2 Heart Rhythm Screening (Atrial Fibrillation) – \$60.00

A quick and easy test using EKG electrodes placed on the arms and legs to identify the presence or absence of an irregular heartbeat at the time of the screening.

3 Abdominal Aortic Aneurysm Screening – \$60.00

Ultrasound is used to screen for the presence of an aneurysm in the abdominal aorta that could lead to a ruptured aortic artery.

4 Peripheral Arterial Disease Screening – \$60.00

Evaluates for peripheral arterial disease (plaque buildup) in the lower extremities. It is 4-5 times more likely you will die from heart disease if you have peripheral arterial disease.

5 Osteoporosis Risk Assessment – \$35.00

An ultrasound measurement of the heel bone to determine abnormal bone mass density. Osteoporosis is painless and silent in its early stages.

The Good News... 80% of Strokes are Preventable*
