Dear Postmaster,

On behalf of the Arrowhead Park Association and its 80 member firms, we would like to express our concern over the loss of mailboxes in the park with an afternoon pick-up time. We believe this can only result in added traffic congestion and delays at the post office at the end of the day. Instead of one post office truck picking up from Arrowhead Park mailboxes, there will be many cars attempting to access the post office drop boxes with their daily mail. With the proposed road construction over the next two years, this can only complicate the matter further.

We ask that you consider reinstating an afternoon time for at least one mailbox in the Park.

Sincerely,

Andrea Gibbons,
Chairwoman
